

Improved centering
accuracy $\pm 0.01\text{mm}$

Add-on jaws available in
different heights and in
steel or aluminium

Highly precise positioning
on the add-on jaws due to
the patented cut surface

coated,
corrosion-
resistant body

Improved jaw guidance
rails for highest precision and
parallelism

Change over of the add-on jaws
in seconds with only one screw

Integrated clamping stud for pre-
cise clamping in the Quick-Point®
zero-point system
